Foreword – Anne Hidalgo, Mayor of Paris and Chair of C40	ix
Foreword – Eduardo Paes, Former Mayor of Rio de Janeiro and Former Chair of C40	x
Foreword – James Nxumalo, Former Mayor of Durban	xi
Foreword – Joan Clos, Former Executive Secretary of UN-Habitat and Former Mayor of Barcelona	xii
Foreword – Christiana Figueres, Former Executive Secretary, UNFCCC and Vice Chair of the Global Covenant of Mayors	xiii
Preface	xv
Summary for City Leaders	xvii
Introduction	1
1 Pathways to Urban Transformation	3
2 Urban Climate Science	27
3 Disasters and Risk in Cities	61
Part I Cross-Cutting Themes	99
4 Integrating Mitigation and Adaptation: Opportunities and Challenges	101
5 Urban Planning and Urban Design	139
6 Equity, Environmental Justice, and Urban Climate Change	173
7 Economics, Finance, and the Private Sector	225
Part II Urban Ecosystems and Human Services	255
8 Urban Ecosystems and Biodiversity	257
9 Urban Areas in Coastal Zones	319
10 Urban Health	363
11 Housing and Informal Settlements	399
Part III Urban Infrastructure Systems	441
12 Energy Transformation in Cities	443
13 Urban Transportation	491
14 Urban Water Systems	519
15 Urban Solid Waste Management	553
Part IV Governance and Urban Futures	583
16 Governance and Policy	585

Conclusion: Transforming Cities	607
Annexes	
Annex 1: UCCRN Regional Hubs	609
Annex 2: Climate Projections for ARC3.2 Cities	613
Annex 3: Case Study Docking Station: Overview and Methods	629
Annex 4: Case Studies by Category	637
Annex 5: Case Study Annex	659
Appendices	
Appendix A: Glossary	775
Appendix B: Acronyms and Abbreviations	783
Appendix C: UCCRN Steering Group, ARC3.2 Authors, and Reviewers	787
Index	805

UCCRN ARC3.2 List of Boxes

1.1	Demographics and Climate Change	6	8.1	Urban Ecosystem Services	268
1.2	Urban Climate Change Transformation	8	8.2	Ecosystem Vulnerability	284
1.3	The Sustainable Development Goals and Urban Areas	11	8.3	Urban and Peri-urban Agriculture and (Agro) Forestry for Climate Change Adaptation and Mitigation	288
1.4	Urban Climate Change Research Network Regional Hubs	14	8.4	Key Messages: Cities Biodiversity Outlook	292
2.1	NASA Monitoring of Urban Heat Islands	31	8.5	Ecosystem Disservices	293
2.2	Modes of Natural Climate Variability and Cities	40	8.6	WWF's Earth Hour City Challenge	302
2.3	Climate Models and Representative Concentration Pathways	49	9.1	Middle East and North Africa (MENA) Coastal Cities: Findings from a World Bank Study	335
3.1	A Disasters and Social Vulnerability Index (DSVI)	69	10.1	Health and Health Systems in Cities	366
3.2	Management of Slope Stability in Communities (MoSSaiC)	72	10.2	Stakeholder Engagement Process, Steps, Barriers, and Challenges	368
3.3	Sendai Framework for Disaster Risk Reduction and the UNISDR Making Cities Resilient Campaign	77	10.3	Stakeholder Engagement for an Effective Heat Wave Early Warning and Response System	371
3.4	Climate Resilient Housing in Gorakhpur, India Selected as Lighthouse Activity 2013 by UNFCCC	82	10.4	Contributions of Urban and Peri-urban Agriculture to Adaptation for Food Security, Nutrition and Health	380
3.5	Urban Climate Change Resilience Framework (UCCRF)	89	11.1	Typologies of Informal Settlements	405
3.6	Incorporation of Potential Climate Change Impacts into Disaster Risk Management in Costa Rica	93	11.2	Community Finance through Community Development Funds (CDF) and the Asia Coalition for Community Action (ACCA) Program	416
4.1	Cities' Commitment to Tackle Climate Change	104	11.3	Principles of Climate Compatible <i>in Situ</i> Development in Informal Settlements	422
4.2	Linking Adaptation and Mitigation and the Prospects for Transformation	105	11.4	Solar-Powered Shacks in Informal Settlements: Toward a Financially Viable Social Enterprise Model in Enkanini (Western Cape Town, South Africa)	430
4.3	China's Eastern Route Project: A Challenge for South-North Water Diversion	115	12.1	Urban Production and Consumption and GHG Footprints: Data Challenges and Action	450
4.4	Psychological, Social, and Behavioral Challenges and Opportunities for Climate Change Decision-Making	130	12.2	Managing Greenhouse Gases Emissions in Cities: The Role of Inventories and Mitigation Actions Planning	451
5.1	Key Definitions for Urban Planning and Urban Design	142	12.3	Energy Supply in Quito, Seattle, and Delhi	455
5.2	Urban Form and Function	143	12.4	A Framework to Evaluate Climate Vulnerability of Urban Energy Systems	460
5.3	Multisectoral Synergies for Transit-Oriented, Low-Carbon Districts	149	12.5	Shanghai, Lingang: An Innovative Local Energy Concept to Cut CO ₂ Emissions by Half	464
6.1	Definitions of Terms: Fairness, Justice, Equity, and Equality	176	12.6	Low-Carbon Infrastructure Strategies for Cities: Carbon Intensity and Population Density Is Key	469
6.2	Climate Change and Gender Inequality in Cities	181	14.1	Municipal Wastewater Treatment as a Greenhouse Gas Emission Mitigation Strategy in Mexico	545
6.3	Mapping Exposure to Coastal Stressors, Social Vulnerability, and Population Growth in West Africa	185	15.1	The Definition of Municipal Solid Waste	556
6.4	Demographic Composition and Change	212	15.2	Defining the 4Rs with the Waste Hierarchy	557
A6.1	Policy Recommendations from the Ground, Elicited through Stakeholders of UN Habitat	214	15.3	Informal Recyclers in Accra	564
7.1	The World Bank City Creditworthiness Initiative: Innovation to Improve Cities' Access to Funding for Low-Carbon, Resilient Infrastructure	232	15.4	Income Generating Potential of Waste Pickers	574
7.2	Information and Communications Technology and Climate Change	243
